 - Touristic: tourist villages.

OUR VISION - OUR MISSION

Our Vision:

G.S.C has been launched in **1999** inspired by innovative architectural visions and creative ideas. We are providing the architectural services & the consulting constructional solutions according to modern architectural concepts in addition to the previews & the initial studies of projects with high professionalism.

Thanks to the existence of a whole crew of architects, structural & electromechanics engineers who are devoted to designing & executing of all kinds of buildings & constructions with high professionalism accompanied by an inspiring aesthetic touch.

Our Mission:

Providing the highest level of services & professional architectural consulting for customers with different requirements that fulfill both aesthetic & durable standards.

OUR SERVICES:

1. Interior design:

GSC is an expert in manifesting the architectural beauty by presenting the most fascinating modern interior designs that grant the residential units & companies' special elegance.

Since 1999, our designers had practiced designing in Egypt, and many other countries like Albania, Nigeria, KSA, UAE, Kuwait & Libya, since the elegant & magnificent productions require a high level of experience & expert skills in the field of interior design, decor & furniture.

GSC is distinguished of having the professional architects & experts to supervise accomplishing a masterpiece in your home.

INTERIOR DESIGN

OUR SERVICES:

2. Construction:

Beside urban planning services, decor & interior design, GSC is designing & executing the integrated constructional projects.

A whole resident crew of architects is provided for each project.

They are responsible for supervising the finishing, revising all the decor details & conforming the architectural works with the executive plans for all the items to guarantee that all works are accomplished precisely.

CONSTRUCTION

OUR SERVICES:

3. Smart home:

Smart home contains advanced control devices, which are touchscreens. They can be either fixed in the wall or portable like mobile touchscreens such as the iPad and iPhone, in addition to programmed control buttons that can control and monitor all electrical and electronic devices.

There are many examples of Smart Home systems that include lights controlling, electric curtains, TV, cameras, air conditioning, sound systems, electric doors, alarms of theft and fire system, swimming pool lighting, fountains, .. etc.

For more comfort, security and luxury, Smart Home systems can also be linked to the Internet (IP based) and the phone so that it can be controlled and monitored from anywhere in the world.

SMART HOME

OUR SERVICES:
